To Whom It May Concern:

It is my pleasure to write a letter of recommendation for Mrs. Katerina Bolshakova. My wife and I met Mrs. Bolshakova in the summer of 2007 when we were remodeling our bathrooms and the second floor of our house. Mrs. Bolshakova's primary responsibility was to sell us tile and Kraft made cabinets but in addition to that she offered invaluable help and fantastic design ideas. Unfortunately I am "color blind" and have very limited understanding and feel for modern design and this is combined with above average "pickiness" as a client. Katerina handled a multitude of obstacles I threw in front of her on the way, offering a high-level design solutions combined with warm personal approach and utmost patience. Over the course of our "collaboration", it became apparent Katerina is not only designer savvy but also quick to adapt to her clients needs. Furthermore, Mrs. Bolshakova is punctual, professional, and works well with a team of hard headed contractors. She is open to new challenges (we offered quite a few) and keen to explore different ideas.

Our bathrooms and the whole second floor of our house turned out very beautiful and contemporary – exactly the way we wanted it but definitely couldn't do it on our own.

Although both my wife and I will miss Katerina, we want to wish her all the best in her future endeavors and will highly recommend her to anyone that needs help with internal home design.

Best Regards,

Konstantin Denev
